Clear View Screens and Window Wipers

A clear vision under all weather conditions is of vital importance to the helmsmen of all sea-going vessels and to the drivers of any transports on land.

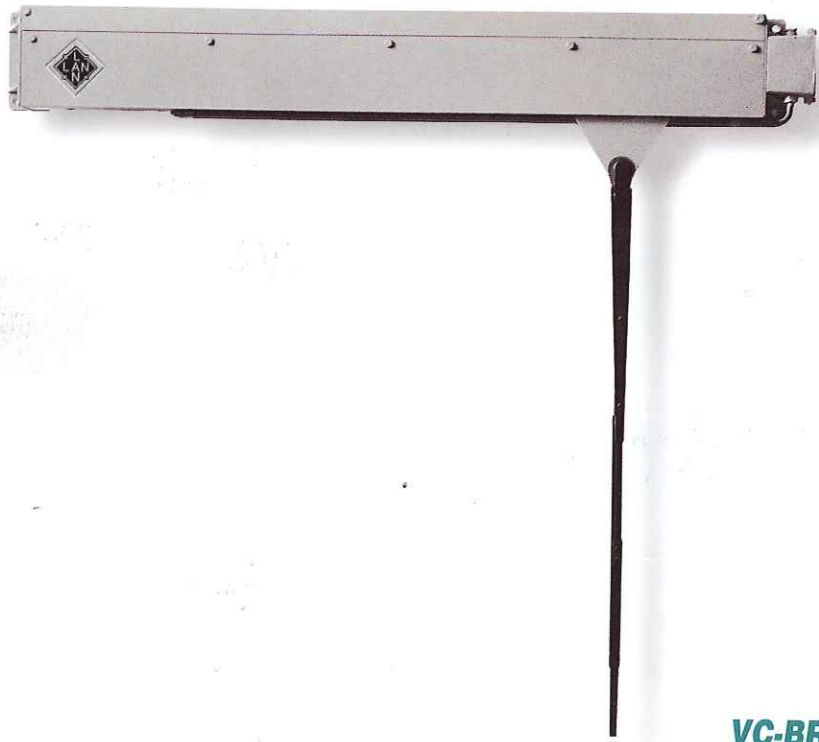

La Auxiliar Naval, S.A., with the experience accumulated during its over 40 years at the service of the shipbuilding industry, offers a wide range of products covering the requirements of said markets.

Our equipments offer the following advantages:

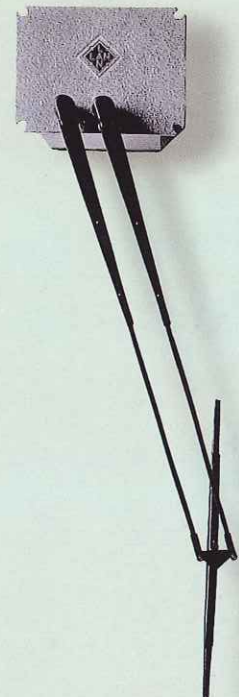

- Specially designed to provide a perfect view under all weather conditions.
- Heavily built to withstand storm conditions.
- Corrosion resistant materials throughout.
- Quick and easy installation. Suitable for all types of window.
- Silent and vibrationless operation.
- Minimal maintenance ensures a lifetime of trouble-free service.
- Wide application field: locomotives, snow-ploughs, cranes and principally for all kind of ships.

Wiper Control Unit

A control box to regulate the sweeping cycles period is optionally supplied with the window wipers. Control boxes are suitable for fitting into a console or mounting on the bulkhead whichever is preferred.
